MMM+ (Multi Media Module) for Volvo

The new MMM+ system which is delivered on following models **C30, S40, V50, C70 & XC90** has no longer the DVD-rom inserted in the trunk.

As this new system is working on hard drive basis, the RTI (navigation system) doesn't require a separate DVD anymore to function.

This means at each handover point, people do not need to look frantically in case the DVD-box isn't inserted in the tool bag. This of course only applies when the vehicle is equipped with navigation system.

MMM+ for Volvo

Note: When people see the bag is opened (not sealed) they should report this, as certain items can be missing.
